

Date: October 20, 2007

Our mission is your safety

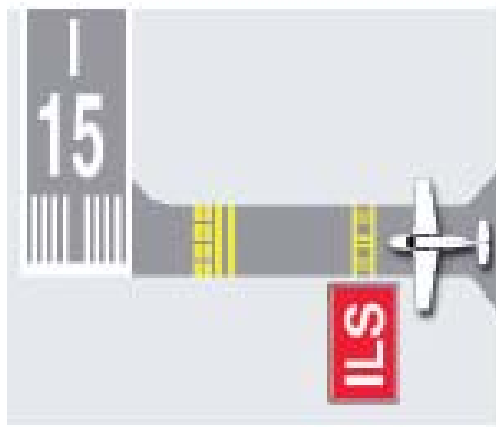

Time: 9:30 a.m.

Runway Safety

Speaker: Bruce Fisher, FAA Office of Runway Safety

Location: Deer Park Airport Administration Building

712 N. Cedar, Deer Park, WA

Runway incursions pose a significant, yet avoidable, risk for pilots and their passengers. Understanding the when and why of runway incursions can greatly improve your level of safety. Airport lighting, signage, markings, and communication procedures will be reviewed. Accidents are avoidable. Do your part.join your fellow aviators as we improve aviation safety!

- ◆ Bruce Fisher, FAA Office of Runway Safety, will provide insight and knowledge valuable to every pilot operating in and out of our local airports. Don't miss this opportunity to gain valuable, **FREE**, safety information!
- ◆ Introduction to the new automated WINGS program will be included.
